EXPERIENCE

Game Tester
Crusherslab QA   **May 2023 – Present, Remote**

· Conducted comprehensive game testing for 2 major clients, Fortnite (Epic Games) and Gold Fever, ensuring the quality and functionality of their gaming products.

· Performed rigorous testing procedures to identify bugs, glitches, and gameplay issues, providing crucial feedback for 2 game improvement and user satisfaction.

· Collaborated with cross-functional teams to meet project requirements and maintain a high standard of quality in the gaming industry, contributing to the success of both clients.

Manual SQA Engineer Intern
Scientistx Technology   **January 2022 – December 2022, Dhaka**

· Collaborated on testing 1 mobile application project, meticulously conducting manual tests to ensure it met industry standards and user expectations.

· Active participation in the 2 software development lifecycle, providing valuable feedback and recommendations that enhanced software functionality and user experience.

· Simultaneously contributed to the quality assurance of a web application, demonstrating versatility in manual testing across different software platforms.

EDUCATION

B.Sc (Computer Science and Engineering)
Daffodil International University · Dhaka · 3.54
BNCC (Cadet)

H.S.C (Science)
BCIC College · Dhaka · 3.92
· Bangladesh Scout (Senior Rover Mate)

CERTIFICATIONS

Google Data Analytics Professional Certificate
Google (Coursera)

The Google Data Analytics Professional Certificate signifies my competency in data analytics tools and techniques, making it directly relevant to my data analytics career by equipping me with the skills needed to extract valuable insights from data.

SQA & Cyber Security Course
IT Training BD

· The SQA & Cyber Security Course provides a strong foundation in quality assurance and security practices, enhancing my data analysis skills by emphasizing precision and data integrity.

Certified Ethical Hacker
Team Matrix

· The Certified Ethical Hacker certificate attests to my proficiency in ethical hacking, offering a unique perspective on data security and vulnerabilities, which complements my data analytics expertise by allowing me to better understand and safeguard data assets.

SKILLS

Data Analysis: SQL Querying, R (Statistical Analysis), Google BigQuery

Data Visualization: Tableau, MS Excel

MANUAL TESTING: GUI testing, Functional testing, End-to-end testing, Compatibility testing, Localization testing, Acceptance testing

MIND MAPPING TOOL: Xmind

API TESTING: Validation testing, Functional testing, Load testing, Reliability testing, Security testing, Penetration testing.

Performance Testing: Spike testing, Non-functional testing, Endurance testing, Scalability testing, Volume testing

CONCEPT: Agile, SDLC, STLC

AGILE METHODOLOGY AND PROJECT MANAGEMENT TOOL: Jira

GIT: Source and Version Control

WEB DEV: HTML, CSS, JS

ETHICAL HACKING: Penetration testing

PROGRAMMING LANGUAGE: Python, Java, C

MACHINE LEARNING, AI, NLP
